{LexCom Linde Lindos keygen} {LexCom Linde Lindos keygen} {LexCom Linde Lindos keygen} Lexcom Linde keygen For Lindos+Doctor+PathFinder+TruckExpet.Q: How to get Fixture Attributes from Redux Store and save them in localStorage I want to save some fixtures attributes when the user logs in and then i want to fetch them with the same method. In my logs and in the usage of the users in the store i only save and retrieve the user id, I have tried a lot of things but can't find a way to save the attributes (the data type is number but i have done it with string too but it's always get overwritten in the localStorage) let logs = JSON.parse(localStorage.getItem('logs')); let user = state.user; const loadUsers = () => { let fetchUser = await axios.get(" + user); let userObj = []; user.forEach((d) => { userObj.push(d); }); logs.logs.push(userObj); localStorage.setItem('logs', JSON.stringify(logs)); }; const saveUsers = () => { localStorage.setItem('logs', JSON.parse(localStorage.getItem('logs'))); logs.logs.push([]); }; Please tell me how to save and get the items. A: Thanks to the attemp of @AviDi I found this solution: const Logs = (props) => { const [logs, setLogs] = useState([]); const onLogChange = (log) => { props.login(log.id); props.saveLogs(); setLogs([]); }; const onLoadUsers = () => { const request = axios.get(" + props.currentUser.id); request.then((data) => { f678ea9f9e
