About This Game

Troubles Land is in trouble Again.

When Qais and his friends decided to revolt against the evil invaders, the secret services discovered their plot and imprisoned all his party.

Help Qais free his friends and join them as they run, jump and slash their way through five distinct worlds of the Troubles Land.

Key Features:

- An immersive Award winning 2D Action/Adventure platformer.
- Seven Unique Characters.
- Amazing Hand-drawn Artwork complimented with 3D Graphics.
- Various gameplay, from run, jump and slash to diving with submarine, climbing towers and piloting spaceship.
 - Play on Windows, Mac, and Linux.
- Fully remappable controls for Keyboards and Gamepads.
- Addictive, surprising, and challenging.

Title: Troubles Land
Genre: Action, Adventure, Indie
Developer:
ENKSoft
Publisher:
ENKSoft
Release Date: 11 Sep, 2015

a09c17d780

Minimum:

OS: Windows XP, 7, 8, 8.1, 10

Processor: 2.0 GHz

Memory: 1 GB RAM

Graphics: Any built within the last 5 years

Storage: 1500 MB available space

English

Pros:

Good for platformer beginners

Diverse gameplay

Sound and music is okay

Graphics are okay

Some of the level design is cool but some will make you go "why?"

Getting all achievements is easy

Some SHMUP action later on in the game

Cons:

Sloppy controls

Sloppy placement of gems

FPS is locked at 30 while playing

Not many audio or video options

Game too short for being so easy

Overall Rating: 5.0/10

Would only recommend it for beginners but it isn't terrible and I had some fun with it. Can't really say it's worth \$5. More like \$2.50 would be a fair price for what it is.. Pros:

- Looks very good
- Varied stages with different types of gameplay
- Short and easy, can be finished in one sitting
- Achievements are easy to get

Cons:

- Floaty movement
- Glitches, can get stuck in scenery
- Unlockable characters are just reskins, no difference in play
- If you are looking for a challenge, look elsewhere

7.5/10

. This game feels like someone's first foray into building games. Unfinished, without polish, haphazardly put together and clearly copying Rayman games, word for word. Originality? None. Optimized? Not at all, frame rate capped at 30 and feels sluggish. Platforming? Suffering as a result, jumping is closer to floating.

1/10 Just go play Rayman instead.

. Beautiful game. But as others said, very easy. Probably more for younger players.. LOOKS interesting... but is a lame **** game that isn't what it wants to be !

The challenge is to manage the bad controls, not the levels.

I like good platformers as

super meat boy fenix rage they bleed pixels

rayman mr bree+, bloo kid ...

I think I don't wanna take the time to finish this bad joke

edit:

played stage 4.1-4.6 and this is a really bad copy

of a level called "tube race" in Earthworm Jim 2.

Even the colors and tube design are the same !

Another point is the camera/screen moves much slower than the player.
So sometimes you only can guess what's coming towards you.
But it's not a problem, the levels are made for five year olds.

This game makes me sad, it's a bad example for what's wrong in the industry. Troubles Land, an impertinence, and it shouldn't be legal. Don't overlook this one. It starts off as a Rayman clone but after awhile it starts to get interesting and throws in creative new gameplay elements. Some stages are so unexpected in their imagination. The game has some unpolished elements and a few bugs and glitches. But it hasn't crashed and nothing has broken the game. I'll admin that I could never finish a Rayman game because they're just too difficult for me. Troubles Land might be too easy because I'm getting 3-star stage completions. It doesn't require collecting every jewel. It's a lighter challenge, but I think that's okay. I've completed 3 of the 5 worlds at the time of this review and I think I already got my \$10 worth. At this point I'm excited and pleased with the game. The developers didn't "phone it in".
