This is the list of 38 top data science and machine learning websites. I could not make a list of them because it is too hard for me. I could not make a list of them because the lists are so long they are impossible to wrap my head around! So, if you need help, or you don't want to go through all the trouble yourself, here are some websites I have found helpful when learning about these topics in particular.

If you do not know how to learn, there are plenty out there who will help you.

1. By watching youtube tutorials
2. Reading blog entries
3. Blogs - certain blogs have a collection of posts on specific topics so it's good idea to look at those posts as well. How to learn?
